Kelly — thanks for having us out. Below is the estimate for the two planter boxes and the 16ft × 6ft redwood wall we walked through. Both prices cover everything: labor, materials, hardware, taxes, and insurance. Any questions, my direct number is above.

SCOPE OF WORK

- 01

Redwood Planter Boxes (×2)

Two planter boxes built on site from redwood. Square edges, mitered corners, sealed seams, and color-matched screws. Set level on the existing concrete patio.
- 02

Redwood Wall — 16ft × 6ft

Horizontal-slat redwood wall, matching the reference photo. Hidden framing, color-matched screws, cut lines sealed before install. Plumbed and tightened before sign-off.
- 03

Install, Cleanup & 1-Year Warranty

All anchoring and fastening done on site. Daily cleanup, final walkthrough with you, and a 1-year warranty on our workmanship.

MATERIALS

Boards are picked on site for color, grain, and weather resistance. Screws are color-matched to the wood tone so the finished surface stays clean — no silver heads showing. Cut ends and end grain are sealed before install to slow weathering.

SCOPE

We build and install the two planter boxes and the 16ft × 6ft redwood wall. The reference photo shows the finished look we're matching.
